**PRECISION TOOLS  
FOR SMALL PART MANUFACTURING AND MICRO-CUTTING**

  
future since 1915

**UTILIS**<sup>®</sup>  
Tooling for High Technology

**Product description**

Development and production of multidec® tools for your own specific needs.

**Customer's situation**

A special machining situation is very difficult or impossible to be resolved by using tools from the standard multidec® range. For this, a special tool or a standard tool with a different dimension is required.

**UTILIS solution**

After detailed consultation, we will develop and make the best multidec® solution for your particular needs. Normally this will be done using standard blanks which enable the special tools to be produced and delivered quickly and at reasonable cost. The familiar multidec® quality is of course always guaranteed.

**Advantages:**

- UTILIS know-how and quality, even for special solutions
- Targeted new development in accordance with customer requirements is possible
- Construction with many years of experience
- Modern manufacturing with the best machinery

Equipping with PCD, CVD diamond or CBN cutter possible by request.

## Inquiry

multidec4you®

The feasibility study starts in the technical office when your inquiry is received and the first estimate of the costs is then worked out with the involvement of the production. Competent product managers will prepare a tailor-made solution for you and provide you with a quotation.
